

Temporary Buildings & Permanent Structures

For hire or purchase

www.lauraluindustry.co.uk

Modular & bespoke temporary structures to meet all your industrial, logistical and technical requirements

DURA-STOCK is a functional, temporary industrial building combining the robustness of our unique construction system, with the ability to adapt to all your needs.

Delivered to your site, ready to be installed in less than one week, DURA-STOCK meets the most stringent safety standards (British Standard) and uses the finest materials: metal frames of extruded aluminium profiles, state of the art membrane roof and a range of wall cladding designs.

The best fabric membrane

Flame retardant, Euroclass B-s2,d0, translucent or opaque and 100% recyclable galvanized steel sheet.

Adaptable foundations

Ground Stakes, Ground Anchors with chemical sealant (pre-concreted and mechanical shoe).

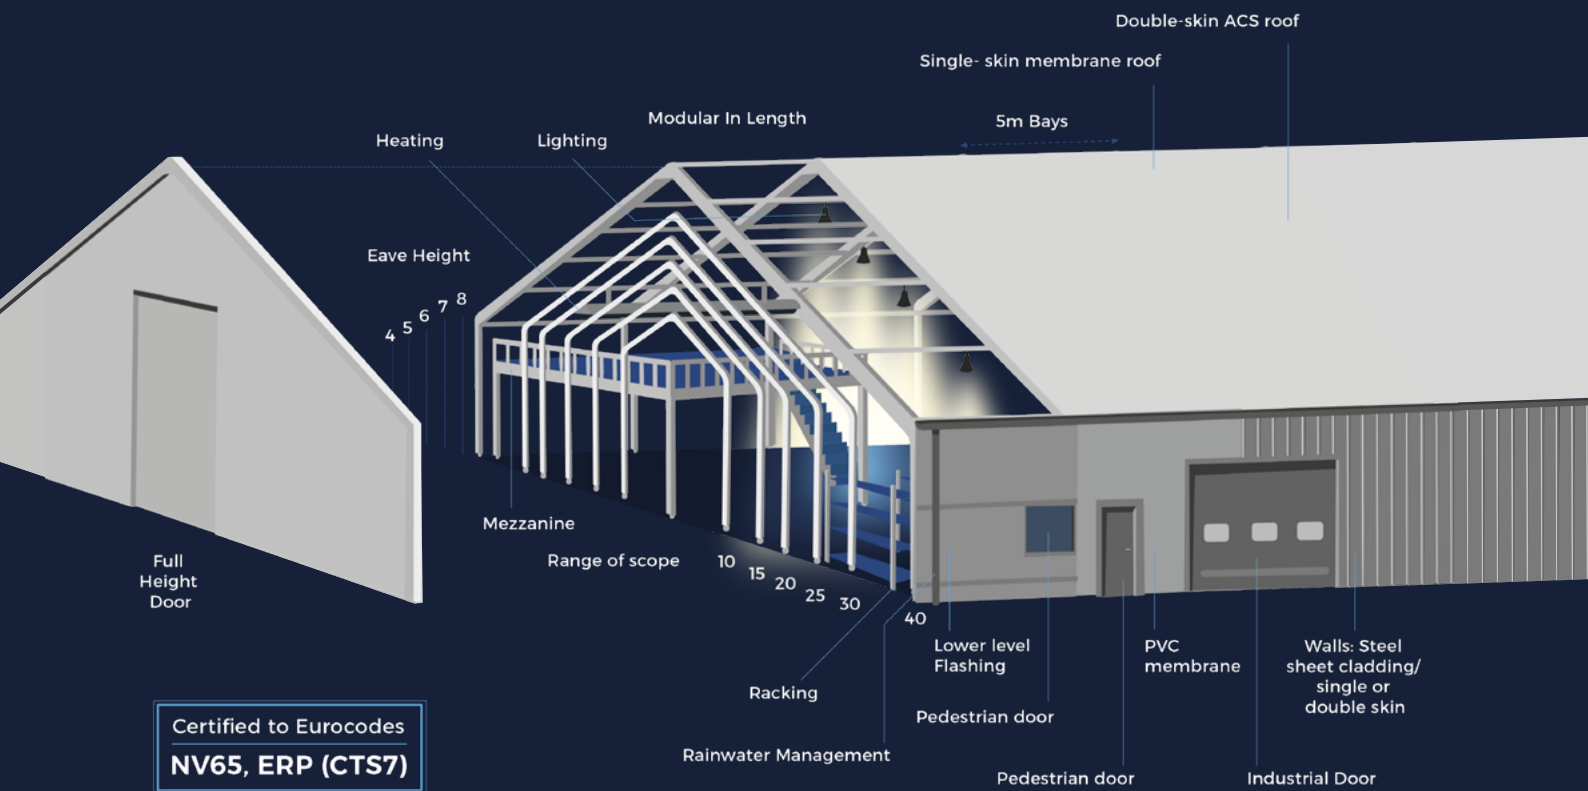

Beyond standards

Custom designed per site location requirements, with high tenacity steel frame and all buildings CE certified.

The strength of an international network

**We are the only company in europe to master the value chain 100%.
We design, manufacture and install.**

Industries we support

While our temporary, semi-permanent & permanent buildings can be used in any industry, here's some examples of who we regularly work with.

Industrial

Controlling costs is essential for any industrial business. Our temporary, semi-permanent & permanent buildings provide industrial businesses with the most cost-efficient, rapid and effective expansion opportunities available on the market. Perfect for storage, production or maintenance.

Distribution

Cost-effective temporary, semi-permanent & permanent buildings for businesses in the cost-driven logistics and transport industries.

We'll help you improve your processes & storage opportunities while keeping costs as low as possible.

Waste & Recycling

Cost-effective temporary, semi-permanent & permanent buildings for businesses in the cost-driven logistics and transport industries. We'll help you improve your processes & storage opportunities while keeping costs as low as possible.

Aerospace, ports & Transportation

Hangars, storage and more – we provide temporary, semi-permanent & permanent buildings for private and military transports and goods storage.

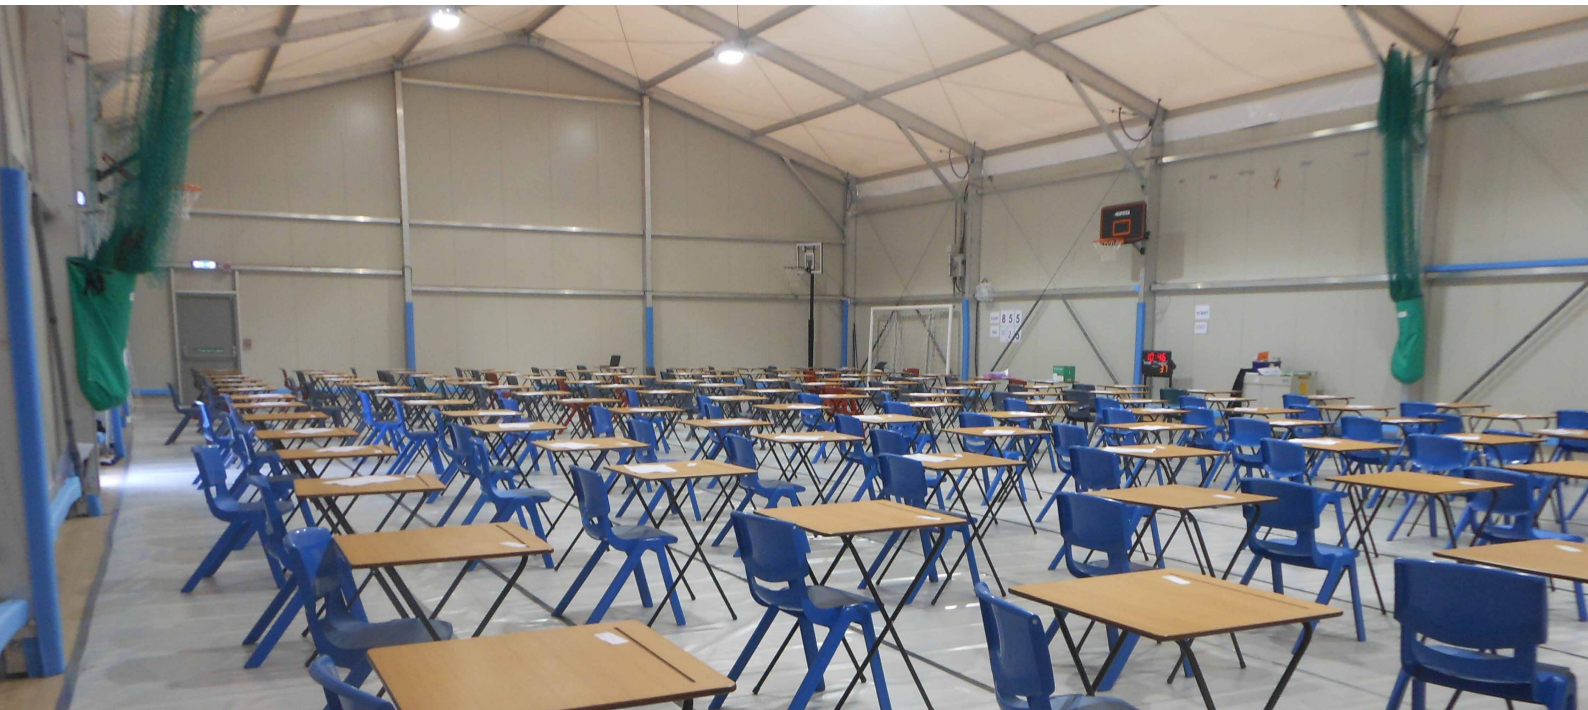

Lauralu structures provide a highly safe and secure environment to house your aircraft, locomotive, tools etc.

Education

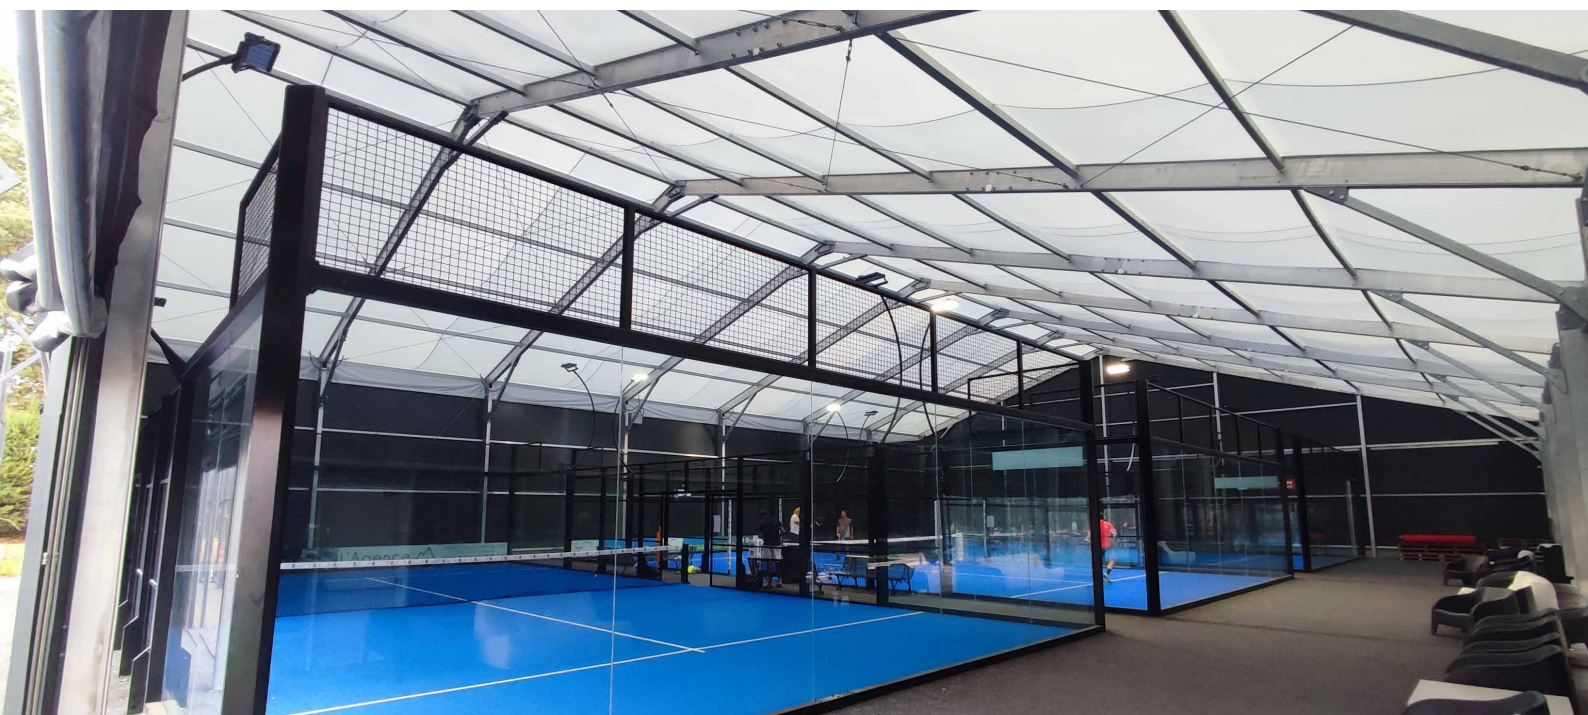

From classrooms to sports halls, our temporary, semi-permanent & permanent buildings are ideal for education institutions. Schools, colleges and universities use our structures when they need a temporary space due to emergency, or if they need to expand while preparing for a build.

Sports

Short-term sports halls, padel/tennis court covers and much, much more, Lauralu temporary, semi-permanent & permanent buildings and sports canopies can be used in a wide variety of sporting applications, helping you grow your business and keep costs down.

Retail

Many retail businesses use Lauralu's temporary, semi-permanent & permanent buildings to help evolve their sales area. Create a bespoke outdoor market, or use our buildings as a secure, warm storage space for any assets/stock you need to keep safe.

Bulk

Our bulk storage buildings are designed to store raw materials or materials in large volumes.

We can install our structure on walls or using concrete blocks in order to arrange your storage spaces. As we directly manage the entire project (consultancy, design, manufacture and construction), if any adaptation of the structure is required, we can carry it out with the support of our design office and manufacturing plant.

Get in Touch

When you're ready to save as much as 50% compared to using traditional permanent buildings, give our friendly team of experts at Lauralu a shout.

We're here to help, whether that's with an initial no-obligation consultation, or answering any questions you might have.
